Diary.**

Chicago, Sept. 10.—(I. N. S.)—
Wounded Japs on Attu island were
slain by their medical officers who
then killed themselves when capture
became imminent, two veter-
ans of the battle declared in
Chicago Friday.

The veterans are Lieut. Herbert
S. Levin, who returned to Chicago
with two machine-gun bullet wounds
in his arm, and William V. Shan-
non, yeoman third class in the Sea-
bees, of Suburban Oak Park.

Evidence of the killing of wound-
ed Japs by their medical officers
before the retreat was contained in
the diary of an American-educated
Japanese physician. The diary was
translated by a chaplain and a copy
of it was brought home by Shannon.

One entry read:
"The fate of East Arms (the Jap-
anese physician's sector) is decided.
So I burned documents and pre-
pared to destroy the patients."

Toward the end the diary said:
"Today we assembled in front of
headquarters. The last assault is
to be carried out. All the patients
in the hospital were made to com-
mit suicide. Only 33 years of living
and I am to die here. I have no
regrets. I am grateful that I have
kept the peace in my soul. Two
hours ago I took care of all the
patients with grenades."
